

## How to Order Custom & Ready-Fit® Covers

Locate the vehicle listing on the following pages. This application guide shows our top 1800+ patterns, of the more than 40,000 in our digitized cutting computer library. You have a choice of Custom Fit or Ready-Fit® patterns. The primary difference between the two styles is:

**Custom Fit** - Follows the exact contours of the vehicle body. The patterns are designed so the cover protects the sheet metal of the vehicle and normally extends half way down the tire. Custom Fit covers are more tailored and will not move around in the wind as much as a universal type cover. Due to body shape, not all covers require mirror pockets. The application guide notes the number of mirror pockets in each pattern.

**Ready-Fit** - These covers are actually "semi-custom", since they come in staggered size lengths to make sure you don't get a cover that is too big for your vehicle. For cars, we use a "hatchback" shape to accommodate as many different styles of vehicles as possible. They do not have mirror pockets but the pattern makes allowance, with space for most styles of mirrors.

Noted below is an example of the information shown in the application guide:

PATTERN		SIZE	MIRROR	BODY	BUDGET	STANDARD	DELUXE	TECHNALON®
MAKE, MODEL & YEAR	No.	GROUP	POCKETS	STYLE	BLOCK-It 100	BLOCK-It 200	BLOCK-It 300	EVOLUTION®
					U3 SERIES	U4 SERIES	U7 SERIES	U8 SERIES
Integra Sedan, 1994-98	C14404	LG	**	a	C35004	C40004	C70004	C80004

This is the **Custom Fit** pattern number

The **size group** determines the price of the cover (you need to select a fabric in the size for your vehicle).

Refer to the **"Body Styles"** chart at the bottom of this page to verify the shape of your vehicle.

Two **asterisks** mean there are mirror pockets pockets on both the left and right side of the vehicle, one asterisk means there is a mirror pocket on the drivers side only.

These are **Ready-Fit** patterns available for this specific vehicle. They will provide a good semi-custom fit.
